Multi-Kiosk Configuration Illustrated

Complete your system with the best industrial weighing equipment available.

SURVIVOR® Truck and Railroad Scales

Known as "The Toughest Scales on Earth.™" SURVIVOR truck and track scales provide reliable performance under the most demanding conditions. These scales are built with more structural steel, a superior support structure and innovative design features that provide consistent accuracy, less downtime and longer scale life.

HMI Digital Weight Indicators

We offer a complete line of weight indicators, including models that can store up to 1,000 truck ID numbers and truck tares.

CB-2

The CB-2 is a versatile, efficient concrete batching control system ideal for ready-mix and block plants. It is capable of controlling portable plants, stack-up plants, central mix, dry batch as well as precast plants.

Traffic Signals

Rice Lake traffic signals have been tested to over 80 MPH wind loading on a single-point attachment. Corrosion-resistant PVC coatings and stainless steel hardware make the unit virtually impervious to weathering.

Remote and Messaging Displays

Featuring a super-bright LED display and a non-glare filtered lens, the SURVIVOR LaserLight® Remote Display and M-Series Messaging Remote Display is clearly visible — even in direct sunlight. The unique IntelliBright™ feature uses a photo sensor that reads ambient light and automatically adjusts the display's intensity between day and night settings optimizing power usage. The 4" and 6" LaserLight and 8 and 12-character M-Series, models are available with visors.

Load Cells

Rice Lake is the largest supplier of load cells and related accessories in North America. Our load cells are standard equipment on many OEM concrete plant applications. Rice Lake components are the perfect solution to retro-fitting your existing plant.

Belt Scale

Driven by Rice Lake's revolutionary 920i, this rugged belt scale is built to last. Ideal for mining, quarries, bulk material blending, process control operations, and truck/barge/rail loading applications, Rice Lake's durable belt scale easily handles capacities up to 10,000 tph with unsurpassed accuracy.

OnTrak Software

OnTrak automated ticketing software provides a versatile database for the collection of customer, product, hauler, truck, job, price, tax and transaction information. This entry level software features a SQL Server 2005 database and can either print or export report information to MS Excel spreadsheets. Both Ethernet TCP/IP and RS-232 connectivity is supported with one or two scale inputs.

WLS-1 Wheel Loader Scale

The WLS-1 Wheel Loader Scale provides on-the-go weighing for track, skid-steer and front loaders. Essential for quarries, transfer stations, mines and remote sites, the WLS-1 is a state-of-the-art solution for on the move weighing that won't slow your production rates. This system allows loader operators to accurately load trucks, rail cars, or vessels to optimum capacity, eliminating load adjustments at the outbound scale.

Benefits of the Automated Ticketing Kiosk System

- Improves safety
- Reduces labor costs
- Improves traffic flow
- Minimizes "in-yard" times
- Minimizes transaction errors
- Maximizes transaction counts
- Drivers prefer a more efficient system
- Dramatically reduce operating costs with a fully automated solution to truck weighing and vehicle management
- User-friendly, intuitive operator prompting
- Custom format tickets
- Complete data management and tracking control with Premium Truck Ticketing PC software
- Circuit breaker protected AS power management (instead of fuse)
- Accurate weighing and data management with Rice Lake's robust 920i® HMI controller
- Designed for unattended vehicle weighing
